ICT and PEDP3

- The Third Primary Education Development Program (PEDP3) is a sector-wide program to be implemented during 2011-2016 period.
- PEDP3 contains specific activities regarding digitization of operational performance of DPE.
- PEDP3 will reinforce school-level automation to improve school and student performance.
- Those reforms will be based on a decentralization policy and strong institutional capacity building at the school level.

PEDP3 targets to provide access to computer technology for learning in every primary school.

It also contains provisions for digital educational contents for e-learning.

It intends to extend facilities for use of web-based resources by the teachers and students to develop and learn their lessons.

It aims at introduction of digital textbooks at the primary level based on the outcome of a successful feasibility study.

Plan & Initiatives of ICT in primary and mass education sector

- ICT Strategic Vision and Plan of DPE: To put it very simply only two main and specific purposes—“Doing things better” and “Doing better things”.
- NFE ICT Plan and initiatives of BNFE: Establishment of a fair, equitable and knowledge-based society that ensures education for all to face the challenges of 21st century.

Objectives of ICT Strategic Vision and Plan of DPE

- Better delivery of services
- Better and improved capability
- Better access to information
- Better internal and external communications
- Better staff development
- Better transparency, openness and accountability
- Better administrative and management practices
- Better sustainability of ICT operations
- Better maintenance, security and privacy

Objectives of the use of ICT in BNFE

BNFE in collaboration with UNESCO Dhaka and other NGOs has developed the following NFE ICT Plan and taken some initiatives:

1. Building up skilled manpower through the use of ICT in Non-Formal education
2. Creating access of common people to NFE through the use of ICT
3. Improvement of NFE with the use of ICT
4. Development of NFE MIS
5. Development of NFE-NAIS
6. BNFE is to develop an online based national NFE-MIS.
7. BNFE has already developed the MIS software and piloted in four districts and gradually it is being extended in other areas.
8. Development of MIS of PLCEHD-2 Project of BNFE

Conclusion

The Government of Bangladesh considers ICT as an enabling factor towards achievement of its goal of developing the country in a rapid pace. Primary and mass education sector is also an active partner of this high way in light of “Vision 2021” plan that is directed to build “Digital Bangladesh”.

THANK YOU
