Welcome to our presentation

WASH sector

Food Security and Livelihoods

A unique learning of WASH sector - Rohingya response project

Supported by HEKS-EPER

Improving the environment in and around Jamtoli Rohingya camp

Name of the project:

Intervention location

Jamtoli Rohingya Camp (Camp-15)

Mosarkhola Village (Host Community)

Our interventions

- 290 twin offset pit latrines
- 20 deep tube wells
- 20 women bathing cubicles adjacent to the deep tube wells
- Re-excavation of canal: 2,000m
- Reinforced cement concrete drain: 1,550m
- Livelihood support to 4000 Rohingya households

Problems regarding food security

- Dependency on humanitarian aid for food
- Food distributed by WFP lacks important nutritional elements like vitamins and minerals
- The Rohingya community do not get enough space in the camps to cultivate the crops needed to fulfill their other nutritional demands
OUR SOLUTION TO THE FOOD PROBLEM

bag gardening

SEEDS AND SAPLINGS WE DISTRIBUTED

Winter Vegetables:
- Chili
- Eggplant
- Gourd

Summer Vegetables:
- Sweet Gourd
- Ash Gourd
- Indian Spinach

Summer Fruits:
- Papaya
- Lemon
- Moringa
