- A local Diagnostic Centre "Health Aid Plus" is taking support from our Pathology and Radiology Dept. from last year.
- Two Garments company are attached with our hospital as corporate clients.
- Ahsanullah University of Science and Technology and two other companies are going to be our corporate clients soon.
- Two local Ward Commissioners have committed to do corporate deal for all citizens of their ward area soon.

Newly added services for the poor

- Free drug support for the poor from the poor fund.
- All the hospital services and sometime some chemo therapy drugs are provided for the poor who applied for zakat from our Zakat Fund.

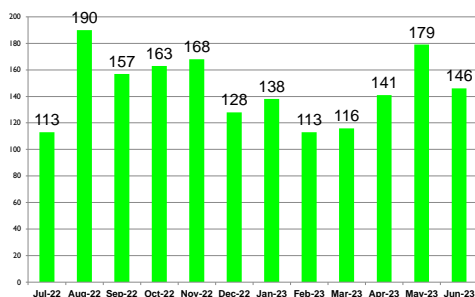

Institutional Evening Private Practice

- As like the recent Govt. Policy we have the system of Institutional Evening Private practice from before.
- Some renowned Physicians, Cancer Specialists and Surgical Specialists are drawing many patients from outside.
- They Hospitalize the patients, doing investigations in our pathology and doing surgery in our hospital which contributing the revenue earning.

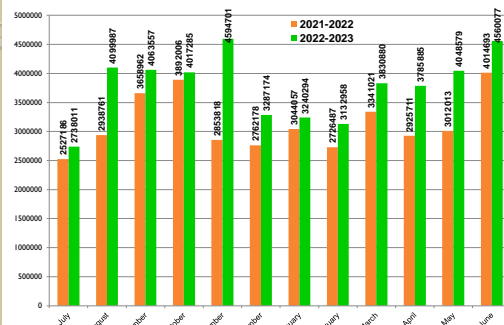

Flow of Patients in the Hospital

- Oncology patients turnover have increased
- Odd time admission in the hospital has increased
- Volume of work in the pathology has increased
- Number of surgery has increased
- In response to our social commitment we also face the pandemic situations and now huge number of Dengue Patients are getting the best services from our hospital.

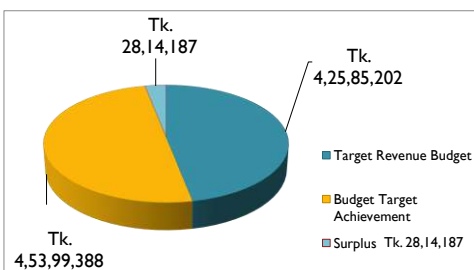

Patients Admission in Hospital 2022-23

Comparison of month wise Revenue Collection Between F/Y 2021-22 & 2022-23

Financial Budgeted Target and Achievement of the hospital F/Y(2022-2023):

Human Resource Development and Improvement of patient's service

- After short training of the ward boys and Ayas - abolishing the gender discrimination we designate them irrespective of gender as Patient care Attendant (PCA)
- These trained PCA welcome the patients by fill uping a 14 points form and take special care from specific service delivery Points.
- For the Nurses: Yearly training course (6 weeks course) started from 2022
- Orientation Course for the newly appointed medical officers

Academic Activities of the Hospital

- Monthly Continuous Medical Education Programme for the Doctors (Every Month's Last Sunday)
- Discussion of New drugs and about rare diseases
- Monthly Continuous Medical Education programme for the Nursing Staffs (Every Month's last Thursday)

Various International and National Day Observance

- To Build the health consciousness among the community various days like World cancer Day, World Heart Day, World Hepatitis day, World diabetic day, World Papilloma virus day, World Nursing day etc. were observed in befitting Manner.
- On World Hepatitis Day we have immunized all our staffs and doctors against Hepatitis 'B' virus.

Formation of Doctor's Club

- Everyday discussion about the condition of the admitted patients, academic postmortem of the previous day death (If any)
- Short Academic discussion if any
- Remembrance and tribute to some legendary Medical persons, Poets and National Heros.

Publication of the Hospital

- 1st time in 2023, on the eve of Annual scientific conference - a Magazine named 'Mirpur AMCGH Update' has been published.
- This Magazine is given as a token of gift to every admitted cabin patients as promotional item of the hospital.

Others Relevant Activities

- Establishment of Khan Bahadur Ahsanullah Corner with a mini library at the reception lounge
- A rooftop garden with mini conference facility has been established
- 150th birth anniversary of our founder Khan Bahadur Ahsanullah was observed with special presentation on "**Health thought of Khan Bahadur Ahsanullah (R)**".

Some Revenue Collection From Roof Top Garden

- From January 2023 to June 2023 total collection **5375 Tk.**
- These are organic vegetables produced in our roof top garden which is very popular and attractive.
- Among others Banana and Mangoes were distributed to the doctors, staff of the hospital & also to some high official of DAM as a souvenirs

Way forward / Future planning

- **Immediate Planning**
 - Expansion of the bed capacity of the hospital from 30 beds to 50 beds.
 - Construction of world-class standard new 5 Cabins with the central oxygen and sucker facilities
 - Arrangement of more Isolation Beds
 - Arrangement of separate ward for patients of infectious disease.
 - Establishment of Two Radiotherapy Machines within 6 Months.
- **Intermediate Planning**
 - Establishment of a portable x-ray Machine
 - Establishment of CT Scan Machine
 - Establishment of a Mammography Machine, Activation of old endoscopy and colonoscopy machine
 - Establishment of a Trade meal ETT Machine
- **Long Term Planning**
 - Establishment of the infrastructure of the Hospital Building which will be a 10 storied Building.

Challenges

- Limited space at this moment - For CT Scan Machine, Mammography Machine and Radio therapy Machine establishment needs more space and areas.

**Hope we will be able to
overcome all the challenges
with your kind cooperation.**
